

# **CABLE AND HARNESS TECHNICIAN**

## **NEW TOWN, ND**

**Northrop Grumman has been part of New Town and Mountrail County for more than 40 years. Located on the Fort Berthold Reservation, Northrop Grumman's New Town facility began operation in 1970 and is one of the largest employers in Mountrail County, N.D. Its 125 employees produce radio frequency and fiber-optic cables, and wire harnesses essential to key Northrop Grumman aircraft programs.**

**Northrop Grumman Corporation's (NYSE:NOC) New Town, N.D., manufacturing center has earned a coveted U.S. Department of Labor designation honoring the facility's exemplary health and safety practices and record.**

**Northrop Grumman is a leading global security company providing innovative systems, products and solutions in aerospace, electronics, information systems, and technical services to government and commercial customers worldwide. Please visit [www.northropgrumman.com](http://www.northropgrumman.com) for more information.**

### **Description:**

Under the direction of supervision or higher classified Aircraft Electrician, assembles, mounts, braid and connects electrical cables, harnesses, sub-assemblies and component parts.

Acceptance into the Simulation Technician degree program (a Department of Labor registered Apprenticeship program) at Lake Region Community College (Devils Lake ND) is a condition of an employment offer, and maintaining an overall cumulative GPA of 3.0/4.0 or higher (academic transcripts must be provided at the end of each semester to your NG manager) is required. This academic program is eligible for Northrop Grumman's employee educational assistance program. <https://www.lrsc.edu/academics/programs/apprenticeship-program>

### **Essential Duties:**

- Under the direction of supervision or higher classified Aircraft Electrician, assembles, mounts, braid and connects electrical cables, harnesses, sub-assemblies and component parts.
- Work from drawings, blueprints, manufacturing specifications and procedures, quality procedures and instructions, operations work sheets and company, military and customer specifications procedures.

- Adhere to all applicable environmental, safety and health, and operations procedures and directives.
- Notify supervision of any/all malfunctions, defects and damages of equipment, material and product.
- Check work for completeness and accuracy.
- Perform Production Accountability duties associated with the processing, verification, and quality auditing and inspection of assemblies, parts and tooling for which the individual has been delegated production accountability.
- Keep work area clean and orderly.
- May be required to work in other fields incidental to, and in connection with, completion of assignment.
- May be required to perform other related duties as assigned.

**Candidates applying to the position must be available to work one or more of the following shifts:**
