

# *Altru Clinic-Lake Region Endowed Scholarship*

**A**ltru Clinic-Lake Region is a multi-specialty group practice consisting of family practitioners, internists, a general surgeon, and a gastroenterologist.

The origin of this medical facility dates back to the turn of the century with its formal formation taking place in 1947. The building that houses this group practice was built in 1976 and is located adjacent to Mercy Hospital. The facility is complete, with a certified, in-house lab, radiology (including certified digital mammography), electrocardiogram, surgical suites, and an in-house pharmacy. Altru Clinic-Lake Region has a number of specialty consultants who provide scheduled specialty care at the main clinic. These specialists include orthopedics, urology, ear/nose/throat, oncology, podiatry, bariatrics, cardiology, neurology, and obstetrics/gynecology.

By forming this endowed scholarship, Altru Clinic-Lake Region hopes to help Lake Region students attain their educational goals through Lake Region State College.

It is also hoped that, through the years, this scholarship may prove to be a conduit to channel continued group and individual contributions for assisting in the education of Lake Region State College students. ♦
