

Bravera Bank Scholarship Endowment

Our Story

Bravera's story began with small, independent banks throughout North Dakota and Montana. All were pillars in the communities they served.

Towner County State Bank first opened its doors in Cando in 1967. The bank expanded into Devils Lake in 1998, and the name was changed to CountryBank USA. It eventually merged with American State Bank in October 2011.

In Fall 2021, American Bank Center changed its name to Bravera Bank and now employs more than 550 individuals at 32 locations across North Dakota, Montana and Minnesota.

This employee- and director-owned company continues to operate as its founding banks did – with community at the heart of everything it does and a focus always on its customers. ●
