

Regynski Family

Scholarship Endowment

Gary and Kyle Regynski, originally from South Dakota, moved to North Dakota in 1979. They settled in Hazen to raise their daughter, Erin, and to pursue their careers. Gary was a mechanical engineer at North American Coal Company, and Kyle taught English at Hazen High School.

In 2007, Gary and Kyle moved to Devils Lake to be near their daughter and son-in-law, Erin and Lonnie Lacina, granddaughter Brynn, and grandson Tane. Tane graduated from the LRSC Precision Agriculture program in 2019.

Kyle taught at Devils Lake High School until 2014, worked for the Northeast Education Services Cooperative until 2020,

and retired after forty years in education in North Dakota.

Kyle has always been committed to teaching and the importance of life-long learning. She's proud to have three generations of teachers in her family. Her father was a college professor and administrator, and their daughter has been an educator in Devils Lake since 2000. Gary has always had an interest in collecting, restoring, and racing classic cars.

These interests led Gary and Kyle to establish the Regynski Family Scholarship Endowment which will provide an annual scholarship to benefit an exemplary LRSC student pursuing a career in education or automotive technology. ✎
